

CIF Permit Modification Requested

The U.S. Department of Energy (DOE)-Savannah River Operations Office has requested from the South Carolina Department of Health and Environmental Control (SCDHEC) modifications to Savannah River Site's (SRS) 1995 Resource Conservation and Recovery Act (RCRA) Part B Permit. The request is for SCDHEC to change the Consolidated Incineration Facility (CIF) permit language that addresses when CIF must initiate closure.

Additionally, SRS is submitting a response to a Notice of Deficiency from SCDHEC regarding Volume I, General, of the Site's 2000 Part B permit application.

This notice begins a 60-day comment period. More information, including the actual permit and application, is available for review and copying at the US DOE Public Reading Room located in the University of South Carolina-Aiken library, or by contacting personnel listed below. The permittees compliance history during the life of the permits being modified is available from the Agency contact person.

A public meeting will be held January 30 at 3:00 p.m. at the Aiken County Public Library. Representatives from SRS will be available to answer questions. Written comments may be sent to SCDHEC. All comments will be considered in the final decision.
